Submission: Objection

Comments: Sir, object to this application on the following points:

The premises were built for educational reasons and not to house individuals, who are not allowed to work , or educate. As representatives of the residents of the area , the planning authorities should listen to the concerns of the community they represent .

The premises are individual singular occupancy rooms ,hence I am sure if approved them this will be occupied by singular males. A large number of males in the centre of BUxton town centre ,would unbalance the town, along with serious problems with criminality such as theft ,disorder ,sexual offences and disorder. This would make the town centre , not a pleasant environment, and hence I would no longer use the town centre , which will affect local business with the closure of shops , with loss of revenue to the council. Any security employed would only be used on the premises and would not be available to be used in public areas.

There are insufficient police resources

in town, and as custody is now in GMP or Chesterfield , any prisoners from the property , would provably. Leave no resources in town , due to escort duties. Once a person is arrested this will take 2 officers all shift to process stage prisoner , with no officers available locally for potentially 9 hours.

If the application is approved , i would consider not paying my council tax, as part of a protest , and I know a large number of locals reconsidering this Action.

I see that the application is to go ahead at 1 pm in the afternoon, when the majority of people are at work and unable to attend to voice their opinions. This is not democracy and should be delayed for a more suitable time in the evening when the local population can be fairly represented
