Submission: Objection

Comments: I strongly object to this proposal on several grounds. The area is already several congested with vehicles, which increases pollution. The area is gridlocked on a daily basis and the resultant congestion causes frustration, which in turn leads to drivers making dangerous decisions, such as u-turns or other rash manoeuvres. The proposed entrance at Dinting is almost opposite a primary school. There is no car park and drivers park on both sides of the road. The danger to children and other pedestrians is one of my paramount concerns and I witness these near incidents on a daily basis during term time, but also out of term as the area is popular with walkers. Other concerns relate to wanton destruction of a recognised wildlife sanctuary. The area is a haven for flora and fauna and is used regularly by local people for leisure purpose, which has a proven benefit to mental health. The local community (and beyond) is aghast at this proposal and I object strongly and beg the Council to consider and respect the views of the citizens affected by this proposal. This proposal will lead to accidents and possible fatalities if building is allowed to begin.
