Submission: Objection

Comments: My understanding and thinking is that as a Country and as an area, High Peak, it is time we looked after our own country men and women ,who due to no fault of their own find themselves in need of accommodation.Ex Service men and women,people who have lost jobs those with physical and mental health who have found themselves homeless .I believe we need to look to their needs ,we have given lots of support over the years to others countries and the people of those countries , but I do believe we now need at this very difficult time to look to the needs of our own country men and women,by providing affordable housing for them .
