Submission: Objection

Comments: Objections on the basis of

-Lack of local resources in medical already in the area with services already stretched beyond capacity

- Increased crime rate of bringing in those who will have no right or access to work, which will increase crime, illegal working practices from those trying to make money, increased risk of drug use and selling in means to make money

- a lack of risk assessments of those being housed, no background checks, no understanding of previous convictions of asylum seekers meaning we have no idea what dangerous people we could be introducing into what is supposed to be a semi rural tourist destination

This plan will turn Buxton into communities like where I have first hand seen how asylum seekers have no respect for local laws or customs
