Submission: Objection

Comments: I strongly object to the current halls of residence being turned into a holding centre for refugees. I object on the grounds that the local services could not cope with the needs of these people. Many of the people being housed under this scheme will require on going medical help, our local GP surgeries are already struggling to meet current demand, getting an appointment is nigh on impossible. The same goes for dentists. The police have also expressed concern that they could not successfully police the influx of people. Surely the halls would be better turned into affordable homes for people already in the area (possibly to prevent the need for Hogshaw to be built on). Buxton does not have the facilities to help these people.
