Submission: Objection

Comments: I have lived, studied and worked in buxton all my life, and raised my children here. We do not want these 'asylum seekers' in buxton. We do not want this in our community. There is not enough public services to cover existing residents; ie not enough dentists, drs, school places. These facilities should be used to help our own people first ie homeless veterans. It has been proved that putting these facilities in other towns has been a death sentence for communities, and increases crime, sex offences etc. These people are NOT vulnerable women and children, they are young single men, who could work and provide for themselves in their own countries. We have the right to feel safe in our own communities, which will not be the case if these people are allowed into Buxton
