Comments: The halls arent suited to house migrants as there are not any outdoor facilities inside the halls grounds, this means the occupants will have to move around town for exercise and fresh air. The influx of 300 migrants into Buxton will have an effect on local people and businesses as the culture difference will cause friction between them. GPs are already at capacity and with 300 extra body's to check it will cause a strain on the local surgeries and the local population. The security at the sit is I believe in adequate as it wasn't designed to house migrants but university students who are firmly used to our culture. We haven't enough police in the area to sufficiently protect not just the locals but the migrants themselves. We are a proud hard working people in Buxton and to have so many migrants hanging around the local area will cause significant alarm and distress to people.
