Submission: Objection

Comments: My objection is as follows: a) the migrants have fled a safe country i.e. France. b) tourism will be badly affected and businesses will suffer. c) the locality for housing these migrants is questionable i.e. close to Fairfield Road which already has its own social problems relating to violence, domestic abuse and drug dealing. Putting these 2 groups together will aggravate the situation. d) I have grown daughters who have young children. The migrants' culture is not conducive to a safe environment for females. Should any incident occur the council could be held financially responsible. This would then become a wilful disrespect and neglect of safeguarding. e) there are no local employment opportunities should the migrants be granted residency status. f) the education and health services locally would be put under immense strain attempting to incorporate such a high volume of people. g) the overall norms, traditions and culture of Buxton would be adversely affected by a minority.
