Submission: Neither

Comments: The waste and recycling provision shown on the site plan is not adequate for the number of properties planned. For each property there should be allocated 240litres of refuse capacity and 240litres of recycling capacity. This equates to 2,160 litres for each refuse and recycling, meaning that the bin store should be able to hold 4 x 1100 litre bins (2 for recycling and 2 for refuse). Suitable waste and recycling provision needs to be included in the planning application prior to approval.
