Submission: Objection

Comments: I object to this application, the infrastructure of the town is not capable of sustaining the influx of people from overseas which will not have any form of medical inoculation against disease and will put extra pressure on the already delapidated NHS service. Safety to the public is foremost as we have a minimal number of police officers who are already overstretched serving the existing population. Addition of non working persons to the town only adds to the degradation of the town and does not add any benefit to the town. The presence of the university was supposed to help with regeneration it has now left and a educational facility is now more interested in increasing its finances at the expense of the town.
