Comments: I object to this planning (even though already planned and going ahead)

This is not a town that can manage supporting asylum refugees.

Our health services are at capacity now, police control is minimal in the town, crime will surely go up, nobody has said what age group, gender and countries these refugees will be coming from?

Do they need education? if so and over 19 yrs of age (who will be responsible for the cost)?

We already have problems in the town that requires police attention.

How long are these refugees planned to stay in halls for? If only a short period of time where will they then be housed?

Not happy at all that this is now in the process of happening and the residence of Buxton know nothing!
