Submission: Objection

Comments: 1. You haven't thought of the vulnerability of the people living close to the asylum seekers (Devonshire place) or the kids that are out at night. Or the adults who come out of the railway.

2. Would you really trust them around your children?

3. What are you actually gaining from this because all I see is loss of businesses, loss of people visiting Buxton, who's going to want to come and visit and stay in lovely Buxton with an asylum seeker refuge so close to town.

4. Who's actually going to be paying for them?

5. There are homeless service men and women who need a home and people who can't afford a roof over their heads that are from this country, why can't you help your own people before helping someone else's, would they help us in our time of need, I doubt it!!!!

As a parent with 3 children (14,7 and 2) I really do think you need to rethink what you are using the halls for, if I am right and it just men who are going in (sexist much) theres only so much they will do before they start pestering people or begging or stealing. If this will go ahead it will all come crashing down and it will be the locals who pick up the pieces again.
