Submission: Objection

Comments: The nature of the application , the description and timing is misleading and the purpose deliberately misrepresented to evade comment by concerned residents . Buxton does not have the infrastructure to support asylum seekers.

We have a sparse police presence at best, overwhelmed health services and schools. The nature of the occupants will have a negative impact on the wellbeing of many residents, particularly young women, parents and young men concerned for family and friends.

The town centre will fall into rapid decline, residents and tourists alike will stop using the centre to avoid groups of asylum seekers and dispersal related problems. Businesses will suffer. Buxton will no longer be seen for the spectacular town that it is.

This has been driven through in such an underhand manner, showing no consideration for the residents of this town.
