Submission: Objection

Comments: I believe this to be a terrible use of this space, this town has taken in more than enough migrants as it is, using this building to house even more of them is an insult to everyone that was born and raised in this town. I can think of a dozen uses of this building that make more sense than housing unvetted, statistically dangerous and crime-happy migrants. We have homeless on the streets and people just about living on the breadline, and yet we are expected to stand by and watch free housing and care be given to people that don't belong here, all the while being ignored by our own council and own police force. Furthermore, I know of many people who will strongly consider withholding their council tax payments if this building is given to these migrants as this will feel like a direct betrayal of the people of Buxton by the High Peak Borough Council. Just something to consider.
