Dear Sirs,

We would ask you to take note of our comments when you review the Planning Application to change the use of High Peak Halls.

These Halls were built using public money so any change should be for the benefit of the local community.

Asylum seekers do deserve to be housed decently but the question of Buxton is the place where they would be comfortable.

The Halls are not used by students so should be put to use to help people of High Peak. There is a local need for temporary accommodation for homeless and families as change to affordable housing.

We do hope you will refuse the application.
Yours faithfully, Peter & Anne Davies
