Submission: Neither

Comments: Thank you for the opportunity to comment upon this application. We note that the site involves three footpaths, Buxton 17/18/19. As I could not open the application form I cannot confirm that this has been recognised in the application. They are not indicated on the plans. Whilst it appears that the proposed works do not require any adjustment to the footpaths long term. However, Footpath 17 is along the track that it is proposed will be used as the access road to the works; it is therefore crucial that appropriate provision is made for the safety of those using the footpath during the works. We would ask that a condition is attached to any permission granted to the effect that all 3 paths must remain open and safe to use during and after the works.
