Subject: HPK/2023/0201 - Charlesworth Stud, Woodseats Lane, Charlesworth.

Dear James,

I refer to the above application recently received by this authority for highway comments.

The statement included in the application states that the increase in lessons provided at the site will equate to 3 lessons per day; clearly this assumes that lessons are offered on 21 days per month or thereabouts. Unless there is a more prescriptive restriction placed on the number of lessons permitted per day, it is considered that a split of 70 lessons per month over 21 days is reasonable to assess the potential impact of additional vehicular traffic generated by the site.

It is recognised that Woodseats Lane is a single track road with few passing places and there will likely be some instances where two vehicles will meet; this situation is likely to occur currently without any increase in activity at the application site. The increase in lessons provided at the site may lead to more instances where opposing traffic meets; however, considering the relatively low vehicle flows on Woodseats Lane and the relatively low vehicle speeds, it is not considered that this would amount to a severe highway safety concern which would warrant an objection.

Based on the above comments, there are no highway objections to the application.

Yours sincerely,

Adrian Martin MCIHT | Project Engineer | Highways Development Control | Place |
