Submission: Objection

Comments: I have already put my objections in but would like to add further if possible, this is causing myself a lot of anxiety/worries due to how this development is going to affect my son, as stated earlier my son has special needs autism sensory processing disorder, He is non verbal and needs support in all areas, He goes to a special school. He is slowly learning how to become independent ie.. dressing, using an iPad to communicate, he is very nervous around loud noises, such as hair dryers, hair clippers, which he will hide under a cushion and cover his ears, He won't enter the school toilets unless they switch of and cover up the hand dryers, this alongside many loud tools/equipment can cause a lot of distress for him. As stated my son enjoys the small bit of land at the back of us, this relaxes him he enjoys sitting in the garden or looking through his bedroom window just watching the wildlife ie.. birds, deers, we hear him sometimes laughing at his bedroom window when the deers come into the land.

I am very concerned how this development and destroying the land at the back is going to affect him, this is going to cause a lot of distress, anxiety, affect his mental health and wellbeing. This could also have a huge impact on his education, the progress he is making could start to decrease due to the development affecting his overall health, the noise of the construction alone will in no doubt cause a lot of distress, and then to take his view away to look at a road and apartments/houses is very concerning.
