Categories:

To whom this may concern,

I've spoken to dozens of residents in the area. Not one, myself included, wants this or thinks this is a good idea. It will disrupt the community, dog walking, wildlife, make the area even more congested and will put more pressure on the A6 and Fairfield Road traffic.

After working in construction for 10 years previously I also know that Barrett homes will be cheaply made and an eyesore.

The council should be thinking of better ways to reduce traffic, population congestion and all the pollution caused by all the lorries and wagons that are dangerously allowed to drive on Fairfield Road, not adding to the issue by adding more people and cars on the road. But no doubt the council will ignore the residents of the area and think about lining their own pockets, as per usual.

Regards

Aaron (Resident of Fairfield Road)
