Comments: I wish to express my concern regarding the proposed new extension and its potential impact on water drainage. As the lowest house in a group of four, our property already manages runoff from the adjoining homes. The current extension is equipped with gutters that effectively deal with water collection. However, there is no clear indication in the plans as to how the new extension will address this issue. We urge the Planning Authority to ensure that provisions are made to maintain, if not enhance, the current guttering system to prevent any exacerbation of water drainage problems for our residence.
