Submission: Objection

Comments: I object to this application on the following grounds. Noise, its a noisy location to live in already due to traffic on the main road at all hours of the day/night. Construction and ultimately more traffic around this area will increase noise even more. Concerns about blocking natural sunlight if houses built. Drainage is already struggling with the houses here already, 7 more is going to cause even more strain on the drains that flood regularly. Dirt from previous excavation blocked the drains and caused flooding and 10s of thousands of pounds of damage to houses on the main road. Previous construction in the area showed absolutely no regard for us who live here. Contractors cars parking in our private car park, blocking the entrance to our car park, despite being told many times this still happened. Privacy, our 2nd floor windows will look right onto this development and of course the development will be able to see right into ours.
