2NX Glossop Comments by: Tanya Morris
From:

Submission: Neither

Comments: I live next door to this proposed development. There are a number of issues that I would like to be considered:-

- concern about the noise that this development will cause whilst being built. My house is on a main road which is already noisy due to traffic. I sleep in my back room during the day as I often work nights (being a nurse). The noise that this will create will affect my ability to work.
- blocking out sunlight onto the rear aspect of my house and garden
- to ensure that any work will not affect the integrity of the incline at the rear of my house
- the development further down Woolley Bridge resulted in the drains on the main road being blocked with mud which resulted in a serious flood. This led to the fire service having to help us evacuate our properties via water emergency response. Therefore I am concerned that this will happen again.
- if construction lorries and other vehicles park in front of my house and the other adjoining houses, they block our vision when leaving our car park onto the main road (A57). There have been a number of accidents due to this in the past therefore I am concerned that this will happen again.
