Submission: Objection

Comments: I live next to the land, i will be hugely impacted by this project. When it rains heavily the water flows down Dinting Road like a stream, the fields soak up so many gallons of water. Where will this go when the fields are concreted over.

I regularly see deer on the fields and an owl hunts in the fields in the evening.

When any work is carried out or it;s snowed traffic on Dinting Road is backed up past my house, there has already been a recent incident of a child knocked over opposite the field where Glossopdale students cross the road from the path through the fields.

I can not imagine the disruption to our lives if this goes ahead, noise, dust and traffic to say the least.
