Submission: Not Object

Comments: I note in the application that it states existing roadways will be used without any adjustments for the increased traffic. The amount of new users of the site has already had a detrimental impact on local pedestrian safety with a lot of additional cars using Arnfield Lane - a single lane farm track, often with little consideration for those on foot and at a speed that is inappropriate for such a road. There have been occasions where queues of cars have backed up, blocking a route that is very popular with cyclists, hikers and dog walkers.

Whilst I do not necessarily object, understanding the need to move with the times in order to keep a farm going, there seems to have been little consideration to the local community and tranquillity of the village given my experience and seeing comments from those houses that back onto the site.
