Submission: Objection
Comments: Only heard of this yesterday as we haven't been consulted.

This has progressed from commercial, to part commercial and residential with quite rigorous checks for noise disturbance to 9 flats...with insufficient parking.

As with many of the objections the vehicle access and excess parking is a major issue, we have enough problems now driving from Forge Terrace to the junction with Green Lane due to no road markings and traffic emerging without looking right. That is exasperated at the moment with the site traffic parking on Forge Road which is blocking all visibility. The possibility of another 9 vehicles parked permanently on Forge Road surely needs very careful consideration as everyone seems to be saying that the roads will remain in the same state until they are adopted at the end of the complete build so no road markings, no restrictions to keep pedestrians whatever the age or vehicle users safe day or night.
