Subject: HPK/2023/0360 - 10 Mill Pond Avenue, New Mills.
Date: 11 September 2023 14:03:29

FAO Pet Twigg,

I refer to the above application recently received by this authority for highway comments.

The Design and Access Statement states that the dog grooming facility generates 8 customers per day and that these are staggered throughout the day. Obviously this has not been a requirement of any previous consent and it is not known if this does occur or not. However, in the worst case scenario where all customers arrived at the same time, some minor congestion on Mill Pond Avenue may occur and potentially cause some inconvenience to neighbours and other users of the cul de sac but considering the nature of the road and the temporary nature of the inconvenience this scenario would not be considered to represent a severe cumulative impact or unacceptable impact on highway safety such that would warrant an objection. Even if customers arrive at similar times of the day, it would be more likely that there would be some natural stagger in the times of arrival thus having little impact. The inclusion of a condition requiring an appointment only system with staggered drop off and collection times may be beneficial in formalising the arrival times of customers but this would not be considered essential to mitigate a potential detrimental highway impact.

Based on the above comments, there are no highway objections to the application.

Yours sincerely,

Adrian Martin MCIHT | Project Engineer | Highways Development Control | Place |
