Comments: The previous wall was knock out by the current owners to park their cars in front of house. So I just ask to put the same wall as before and the same large gate as it was before. We are in conservation area so the wall should be done with the same stones as before to protect area visuals of the street. Before there were just 1 car parking place and not 3 big cars which is now parking in the front of the house. If we want to protect our Buxton heritage we should mainly stay firm in front of our houses which create the appearance of the street. Thank you to take it into consideration when you will decides the solution.
