Submission: Support

Comments: We have recently moved to 15 Robertson Road and fully endorse the applicants' plans. From our perspective, three ground floor windows at number 17 currently overlook number 15. These will be incorporated into the new structure, thus increasing privacy for both parties. The new structure will also have a positive impact on the property from a climate/energy point of view. We also understand how important it is to keep historical integrity in a conservation area, but admire the contemporary approach to the extension. It has clearly been inspired by the architectural vernacular of the area without being a pale imitation of it.
