Submission: Neither

Comments: Whilst I am not in objection to the planning sought and the rebuilding of the bungalow would further enhance the village and area , the property being built in stone with slate roof sympathetic to the rest of the porperties I do have a few issues with reference to the trees.

Tree 1.6 is not in the land in question and would ask why they need to remove neighbours trees? and why does this impact on the rebuilding of the bungalow.

TreeT12 has been there for over 25 years its truck its larger than 50 cms above 1.50 above ground level its in the far corner of the plot and would question why this would need removing at this point in accordance with your own council guidelines.

I am aware than trees have already been removed from this site without any prior planning permission and would ask why there is no replanting plan not included in this planning for any trees in conservation that are to be or have been removed.
