Submission: Objection

Comments: We object to this planning due to the noise level. The noise can still be heard with windows closed and over the television as the white plastic sheeting contains no noise from the bands/music being played inside the marquee. Whilst we agree events and socials are great for the community, this planning is not needed for events to go ahead. There is a purpose built community centre only a few hundred yards away where events for bands/charities/ community gatherings can be held that contains the noise and therefore disturbs nobody. Events are already held here with great success.

We can see a number of people are in support of this planning, however it is interesting to note that many of them do not live in the village or in close proximity of the marquee. We can see on the application that a site visit was carried out by Andy Thomas on Thursday the 29th June, however, this would not have been during an event at which the noise was at its maximum.

On the application form the hours are difficult to read, but we can see there is the request for an additional hour for Saturdays and Sundays during the entire summer and every bank holiday weekend. This also includes for outdoor music to which the noise would be louder. The events are a regular occurrence and the noise already frequently goes on longer than it should in a residential area. As stated by the environmental health officer, the noise has been previously monitored and indicates noise levels of 64dB which exceeds the 50dB limit.
