Submission: Support

Comments: It is encouraging that, having declared a climate emergency, the local authority is at last taking steps to reduce emissions from public facilities. We strongly support the provision of both the Air Source Heat Pump and the Solar Panels. We are confident, having our own ASHP, that there will be no noise issues (indeed it may well be quieter than the existing plant). The panels will be a welcome addition to the roof, setting an example to residents, and will not detract from the appearance of the swimming pool.
