2. Hearing

☒

You must give detailed reasons below or in a separate document why you think a hearing is necessary. The reasons are set out in

☒ the box below

DETERMINATION BY HEARING

The Appellant considers that a hearing would be the most appropriate in which to consider the appeal proposal. The justification for this request is set out below in accordance with Annex K of the Planning Inspectorate "Procedural Guide": Planning Appeals – England .

The Inspector is likely to need to test the evidence by questioning or to clarify matters

The Appellant disputes objections made by the Council in relation to the following matters:
The weight to be attached to the scheme benefits specifically those related to the socio-economic benefits that the scheme would bring to the local area; and
The fallback position available to the current operator

(a) Is there any further information relevant to the hearing which you need to tell us about?

A hearing provides the optimum forum to explore these complex and interrelated matters, allowing the Inspector to test the evidence through round table discussions by questioning and clarifying matters with the Appellant, their planning consultant and supporting technical experts, and the Council, specifically how respective experts have reached different conclusions.

The Appellant's case is supported by evidence prepared by technical experts:
Socio-economics Impact Assessment

PUBLIC INTEREST

There has been a considerable level of interest in the application with significant support from the local community and local ward Councillors. The level of interest reflects the complex issues to be considered and as such we therefore respectfully request that the appeal is dealt with by way of a hearing.
