Submission: Objection

Comments: ​I write in connection with the above planning applications. I have examined the plans and I know the site well. I wish to object strongly to these developments in this location for the following reasons:

1, Protection of flora and fauna. There is a huge amount of birds and other wildlife on the proposed site which will disappear.

2, Proposed dwellings would directly overlook my property with the height of the high ground and spoils country views.

3, My property and my semi detached neighbour's property are historic farm buildings which are grade 2 listed.

Which directly back on to the proposed site. Which will mean these protected buildings could be built in to modern estate.

4.Drainage, my property and my semi detached neighbours gardens have natural stream of water flowing through water features in our gardens which will be disturbed.

5. Loss of privacy.

I fully support the need to build more houses in the area but this site is not suitable.
