Dear Planning

Application number	HPK/2023/0418	Application type	Full - MINOR
Site address	LAND OFF, Marple Road, Chisworth, Derbyshire,	Proposal	Retention of Access and Track

The application suggests that the road has been constructed with the use of road planings/scalpings. These are a recycled product and would normally be classed as “waste” unless they have been through a formal process, so they are no longer waste. As waste they are subject to waste regulation and cannot ordinarily be used in construction without a permit, license, or exemption.

The applicant needs to demonstrate that the material is not waste (or is exempt) and demonstrate that the material is suitable for use. The following should be submitted at application stage, as a minimum.

- Chemical test certificate to demonstrate the planings are not coal tar derived.
- Waste management licence or
- Waste management exemption

In the absence of this this information it is recommended that the application is refused, as there is insufficient information presented.

Regards

Matthew Rhodes
Environmental Health Officer (Pollution and Environment)
