Submission: Neither

Comments: On first reading, this application appears to have been cobbled together from previous applications and, I suggest requires a proper read through and checking.

Whilst the suggestion is that this submission relates to 5 houses, the design and access statement clearly refers to THREE DETACHED houses and FOUR SEMI-DETACHED houses.

Three plus four did not and does not equal five.

If a supposed detailed and binding document has errors on this scale then the rest of it must also be suspect and, I would suggest, it should be rejected pending a thorough review and assurance of its complete accuracy.
