Comments: i would like to say.how nice it is to see a semi derelict unused building and associated land brought back into use .the sympathetic restoration of the main building is so inkeeping with surrounding industrial units.the rebuilding of the dangerous stone wall alongside the footpath now makes it safe to walk past.the gym above looks like it is popular with all age groups .from what i can see there is no increase in traffic other than the normal canal walkers parking wherever they can. the the yard has been cleared, tidied and made useable instead of the unkept and unsafe site it had become.on those few points alone i would like to support this planning application .
