18th December, 2023.

Over the last 6 weeks (since 1/11/23) there have been many more instances of avoidable noise occurring, namely at least 3 occasions when the business owner was busy in the separate Grooming parlour and dogs were left to bark in main house:- 16th November, 27th November, 16th December.

4 occasions when animals left to bark unattended in the evening:- 7th November, 22nd November, 2nd December (intermittently), 17th December.

3 Episodes of disturbance in late evening:- 19th November, 1st December, 16th December.

One episode of disturbance around 3.15 am:- 17th December.

Approximately 11 incidents of early morning disturbance:- 5th November, 9th November, 14th, 15th (3 times), 16th, 17th, 28th November, 2nd & 17th December.

The situation is deteriorating. I would have no objection to a Pet Grooming and Boarding business being run next door to me, if the animals were kept quiet at all times.
