Comments: Before any further buildings are erected the drainage needs urgent attention please see below

Regarding the Heathfield Nook new builds, until further housing can be built the issues with the drains needs to be rectified because now it's getting an environmental health issue.

My 85 year old mother lives at 65 Heathfield nook road she has lived there for well over 65 years and has NEVER had issues with her drains, since the new houses have been built the drains in her backyard are regularly backing up and faeces and waste is all over her yard. Severn Trent water are constantly out clearing her drains. The infrastructure that is there is not adequate for the amount of new houses causing a lot of anxiety and upset.

This information has been presented to Robert Largen MP and also reported to the environmental department.

If this continues without a satisfactory outcome all the photographs and full story will be forwarded to the media, this cannot go on much longer it's disgusting that greed and ignorance of these companies astounds me with no regard on how it's affecting the original houses on Heathfield Nook.

Before these plans for more houses is even considered they need to put in adequate drainage to stop it from backing up to the drains on the houses the other side of the bridge.

Please feel free to contact me for any further information you need, also Robert Largen is aware of this situation.

Mandy
