Submission: Neither

Comments: The space would be utilised better by being turned into a communal space such as a car park for the playing fields or a park for all the new residents to enjoy.

When there is football taking place on the fields the parking around the area is dangerous. Parents block the roundabout and double park so buses and farm vehicles cannot pass. A car park in the proposed area would make the parking safer for pedestrians as well as the children/parents who are participating in the football. A small park would also be beneficial as Barratt have provided new homes for hundreds of families and there is no green space for the children of those families to play on. There is one little playground in Harpur Hill which is on a busy junction and has bits of equipment missing.

Considering there are still houses available to buy on the existing barratt estates, I don't think building more would be beneficial to the community. A green, communal space or car park, however, would be.
