Submission: Objection

Comments: I would like to object to the planning application on the piece of green belt land at the top of Eaves Knoll.

The parking area which has already been made is for a motor home , so in effect a camp site .

The height of the parking space when occupied is a blot on the landscape and extremely visible as you come up the hill.

I also object to any building being erected, due to the land being green belt and the visual aspects because the land is so elevated.

The land next door but one heading down the hill was refused planning permission for a stable many years ago , so if passed this would set a presedence for other applications to be sought.

I would also like to object to solar panels being erected , whilst I totally agree whith the concept for residential homes , I object to the visual impact on the landscape to enable unpermitted camping within 2 meters of residential houses of Eaves Knoll .

Although we are not in a conservation area , the houses are 200 years old and all residents sympathetically maintain their properties and feel a modern campsite with solar panels and outbuildings would destroy the aged feel of Eaves Knoll .
