Submission: Objection

Comments: i would like to object to this planning application As they have already made parking and want to put solar panels there and have parked there motor home here over night thus becoming a camp site in front of our homes....when parking his motor home there is over 6mtrs of height which obstructs views plus visually a scar on the countryside as this is a green belt and must remain so....there is wildlife aswell that use this area for habitat and prey etc, from barn owls to birds of preyi refuse on any building and solar panels as this also would be a blot on the land and would open the door for anyone to do what they want in the countryside
