Subject: EPS MIT 2023-66262-EPS-MIT, new application received.

Dear Rob Watson,
Cc Derek Allan,

**CONSERVATION OF HABITATS AND SPECIES REGULATIONS 2017 (as amended) LICENCE
APPLICATION IN RESPECT OF CERTAIN EUROPEAN PROTECTED SPECIES**

Application Reference: 2023-66262-EPS-MIT
Site: Milltown, Glossop, Derbyshire, SK13 8PX

Thank you for your new application in respect of a Bat Mitigation Licence for Milltown - received in full by this office on 06/10/2023.

We aim to assess your application within our service standard of 30 working days.

Although we endeavour to avoid delays, we apologise that this is not always possible. As licence applications are triaged and prioritised based on strict criteria, we are unable to 'fast-track' licence decisions. Please be assured that a decision will be issued to you as soon as we are able.

Unfortunately, we are not always able to answer individual chase emails, please note if you are chasing your licence before the 30 working days after your application date we will not respond to your query. However, if you do need to contact us about your application then please quote the file reference at the top of this page.

Once allocated, the Wildlife Adviser who has your application will contact you to let you know it is being assessed and will be able to give you a more precise timescale.

Details of Natural England charges:

Natural England has considered the charge screening form submitted with your new application request and we agree with your assessment of charges.

Your new application request will be charged at a fixed price of £500.

Please note that our agreement on your applicable charge has been made on the content of your charge screen form and the initial processing of your new application request. Following more detailed assessment by a Wildlife Adviser, if we believe your charge is different to what we have stated in this email, we will contact you before completing assessment of the new application request and explain why we believe your applicable charge is different.

Please note that a number of factors can influence the processing time in respect of your application. These include the complexity of the application submitted, the quality of the information provided and any requests for additional information that we consider necessary to make a decision on your licence application.

It is possible that Natural England may contact you to undertake a site visit prior to the issue of a licence to confirm that the details of the site are accurately stated in the application.

This correspondence has been sent to the licensee and ecologist only.

Regards

Jane
Adviser
Delivery Team Central (DTC)

My associated office is Horizon House, Deanery Road, Bristol, BS1 5AH

To help people consider the environment Natural England offers two chargeable services

- the [Discretionary Advice Service](#) (DAS), which can provide advice on planning/licensing proposals
- the [Pre-submission Screening Service](#) (PSS) for European Protected Species mitigation licence applications.
