Submission: Support

Comments: I personally can't see why anyone would object to this, it looks tidier. As for the assumption it's a camp site, It's clearly not.

As for views being interrupted, they most definitely are not.

Also the generation of electricity via solar panels is environmentally in keeping.

The Parking area will not affect Eaves Knoll Rd as its situated off the bumpy track. This will not impact any residential properties at all. The area looked un tidy previously, this enhancement will be beneficial to the surrounding area.

I support this application.
