Substantive response provided in accordance with article 22(5) of the Town and Country Planning (Development Management Procedure) (England) Order 2015:

Advice to LPA

The proposal seeks the construction of a domestic double garage.

The internal dimensions of the garage are suitable to accommodate two car parking spaces, thereby replacing the existing two on-site car parking spaces.

Considering that there will be no impact on the current parking provisions, there are no highway safety objections to the above mentioned planning application.
