Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

We submit that the digging of a trench to lay pipes associated with an approved development for a round Source Heat Pump on agricultural land, and the subsequent backfilling of these trenches, which restores the land to what amounts to its natural state, does not amount to an "engineering operation" for the purposes of Section 55 of the Town and Country Planning Act 1990 and as such does not require planning permission.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

This application thus seeks to establish that the laying of pipes and backfilling of the required trenches does not require planning permission by way of a positive Certificate of Lawful Development being issued.

Can the site be seen from a public road, public footpath, bridleway or other public land?

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
