Submission: Objection

Comments: This application is a ridiculous submission.

There is a national crisis concerning young children and obesity, leading to further health complications, and the plan to remove an area in which children regularly utilise for sport such as football, a team sport, being removed will do nothing to contribute towards the promotion of good health and exercise or contribute to the decline in obesity. Furthermore, following on from the pandemic young children struggled with being isolated, with no green spaces to enjoy, people skills and communication skills have declined, removing an area in which children socialise and have space would be absolutely detrimental. Being a young person/ teenager in the isolated peak district with limited public transport and access to alternative recreational activities is hard enough without removing what little "fun" and safe (clearly overlooked in a built up area) space they do have.

These out dated councillors and residents which have CHOSEN to live near a park should be held accountable for this absurd decision and retract it.

We pay enough in council tax- to maintain local facilities that I would like some of our hard earned money been spent on things to enhance our children's childhood not make it more depressing than it already is.
