Submission: Neither

Comments: We have two small children, currently too young to use the area proposed to be demolished but in a few years we would absolutely make use of this at least weekly, it's a great place to get some exercise especially in the winter when the grass is too muddy. It would be an absolute shame to lose this facility to appease the few who want it gone, when so many families with young children make use of this on a regular basis. The park is for everyone not just those who live next to the park, however it was their decision to live next to the park and they must accept that the public will use it. If you submit to this then where does it end, will they ask you to remove the children's play area next because they make too much noise early in the morning?
