Submission: Objection

Comments: My primary concern is the overflow at the rear of the proposed site. Last year, heavy rain flooded our gardens. Who will be responsible for this if issues arise again? My secondary concern is over development. As you aware construction on the old hospital site is underway, are we just allowing all of our nature to be taken over by houses. On top of all this, the increase in traffic and noise pollution will be increased. I'm sure I'm not the only resident to have similar concerns. Can you please take these in to consideration.
