Submission: Objection

Comments: I am a regular user of the footpath through the field that is the subject of this application. In April 2019, I became aware that the land had been covered in stone and was being used for storing equipment & tanks, drums etc.. This was reported to High Peak Planning Enforcement and I forwarded photographs showing the newly stoned area. Since then, the area used for storage has grown substantially. The applicant suggests that the land has been used for storage for many years, however Google Earth images show nothing in 2005 and a few tankers and trailers in 2017, but by 2020, there is a large area covered.

The current use is contrary to that described in the local plan and the application should be refused.
