Subject: RE: DET/2024/0007 - Hillside, Woolley Bridge Road, Hadfield

Dear James,

I refer to the above consultation and have the following comments:

The Method of Demolition statement is considered to be comprehensive and whilst a plan of the on site facilities to ensure that no works are carried out or no materials are stored on the adjacent highway would be beneficial, it is ultimately considered that there is ample space within the site to allow for the demolition of the dwelling without having a detrimental on the public highway and as such there are no highway authority objections to the application.

Regards,

Adrian Martin MCIHT | Project Engineer | Highways Development Control | Place |
